Quality, Risk & Compliance Management

Productivity is at the heart of business success, because it relates to the goods and services an organization brings to market. Since efficient productivity is what leads to sales and surpluses, the concept is directly related to bottom-line profitability. Quality and profitability go hand in hand. QDMS means profitability.

QDMS is an integrated quality management software product. QDMS helps companies comply with quality management systems such as ISO (9001, 14001, 22000, 27000), SQF, BRC, BRC iop, and more. QDMS helps you automate quality management operations in a digital environment with no need of paper-based documents.

It is a management system solution friendly to your business, developed to help you reach targeted quality. QDMS management system eliminates dependency on individuals in your processes.

Quality, Risk & Compliance Management

Some Modules of QDMS are as follows: Quality Document Management, Internal/External Complaints, CAPA, Action Management, Audit Management, Survey Management, Training Management, MSDS, Calibration Management, FMEA Analysis, and Risk Analysis.

Many of the clients have reported increased quality of products & services and continuous improvement. QDMS is scalable (We have clients with 100 employees, we have clients with 10,000 employees)

QDMS works on cloud and on-premise. QDMS can be accessed anywhere with internet connection. QDMS has a mobile app for both iOS and Android. QDMS has reputable international references worldwide. QDMS is multi-language and multi-currency.
